Hi Mr. Ortiz, I'm copying our FOIA office so someone can assist you in submitting your FOIA request.

I'm guessing that Sharon Mathis looped in Mike Wallace (both are listed as working in our HQ in DC) who because your email referred to a property within our Pacific Southwest region of the country forwarded the email to our office for review and appropriate action. In response, our lead paint staff sent out a warning letter to the company identified in your complaint. That letter went out certified mail on 5/17/2018.

The US EPA Pacific Southwest lead-based paint website can be found at this link: <https://www.epa.gov/lead/pacific-southwest-lead-based-paint-tips-complaints>

Subject: Re: FW: RRP complaint in LA, CA from: Lead Contact Us about Lead form

Hello Ms. Cohen:

This is very confusing because I never received a confirmation when I made the complaint using the web system on May 7th. Then when I sent an email regarding that, Sharon Mathis said they didn't find any complaints from my email address on their data base. But this last email shows like somebody took action from my initial complaint.

Anyways, I definitely need a copy of that letter -since everything here looks like the EPA didn't contact the company-, but I went to the link yesterday and it is very hard to understand how I'm supposed to request a copy.

Sincerely,

Isaac Ortiz
